PROFESSIONAL SUMMARY

Data-driven Computer Science undergraduate (BE, 2026) with hands-on experience in machine learning, data analytics, and full-stack development. Demonstrated ability to build AI-powered applications and derive insights from large datasets. Two-time national hackathon winner with a strong foundation in Python, SQL, and ML pipelines. Eager to contribute to high-impact engineering roles in fast-paced, innovation-driven environments.

TECHNICAL SKILLS

Languages: Python, MySQL | **Novice:** Java, HTML, CSS, JavaScript

AI / ML: MediaPipe, Pandas, NumPy, Matplotlib, Seaborn, NLP, RAG, Generative AI

Data Analytics: Power BI, Microsoft Excel, EDA, Feature Engineering, Data Cleaning

Development: Node.js, React, REST API, Figma, Unity

Version Control: Git, GitHub

Soft Skills: Team Leadership, Public Speaking, Problem Solving, Creative Thinking, Adaptability, Time Management

PROJECTS

PlagueSense AI – Coronary Artery Calcium Score Prediction — *Tools: Python, 2D-UNet, TensorFlow, Grad-CAM, OpenCV*

- Automated CAC scoring via 2D-UNet segmentation on CT scans, enabling real-time coronary artery detection and calcium quantification in under 5 seconds.
- Classified cardiovascular risk categories using Agatston scoring with Grad-CAM heatmap visualization, achieving DICE coefficient > 0.85.

AI-Powered Social Travel App — *Tools: Python, FastAPI, Hugging Face, Figma, Unity*

- Designed and implemented end-to-end UI/UX in Figma, delivering an intuitive interface adopted as the core product design for a national hackathon submission.
- Built an AI-driven itinerary planner leveraging Hugging Face models to generate personalized travel recommendations, improving user planning efficiency.
- Integrated AR messaging features and a contextual chatbot, enhancing real-time user interaction and support.

HoloInteract – AI-Powered Hologram System — *Tools: MediaPipe, Unity, DeepSeek R1, RAG*

- Engineered a hardware hologram projection system using the Pepper's Ghost illusion to render 3D product and educational content.
- Enabled gesture-based real-time control using MediaPipe and OpenCV, eliminating the need for physical input devices.

Voice-to-Text Converter with Sentiment Detection — *Tools: HTML, CSS, JavaScript, Java*

- Developed a voice-to-text engine achieving 90% transcription accuracy with real-time sentiment detection conveyed through dynamic colors, emojis, and font styles.
- Enabled multilingual translation across 5+ languages, improving accessibility and broadening the tool's usability.

Stationery Sales Insights & Data Processing — *Tools: Power BI, Python, Excel, SQL, EDA*

- Cleaned and integrated 10,000+ sales records, resolving missing values and outliers to ensure high-quality, analysis-ready data.
- Engineered features, performed EDA, and built interactive Power BI dashboards highlighting key business trends, boosting reporting efficiency by 20%.

EDUCATION

B.E. in Computer Science and Engineering | Sathyabama Institute of Science and Technology, Chennai

2022 – 2026 | CGPA: 8.83 / 10

Intermediate (CBSE) | Vidya Mandir, Mylapore

2020 – 2022 | Percentage: 80%

HONORS & ACHIEVEMENTS

- Luminary Award – Sathyabama Institute of Science and Technology | Awarded by the School of Computing, Dept. of CSE for exceptional commitment, active contributions, and all-around excellence | Academic Year 2025–2026
- Technovation 2026 Winner – Best Project Award | Department of Computer Science and Engineering, Sathyabama Institute | Recognized for outstanding project innovation among CSE students | 2026
- 1st Place – Agentica Hackathon | National-Level 60-Hour Hackathon, IIIT Sricity | Prize: INR 30,000 | Feb 2025
- 1st Winner – Hack-A-League 2025 | National-Level 24-Hour Hackathon, Global Academy of Technology, Bangalore | Prize: INR 25,000 | Feb 2025
- Organizer – Hackera Hackathon 2025 | National-Level 24-Hour Hackathon, Sathyabama Institute | Demonstrated leadership and event management skills | April 2025

CERTIFICATIONS

- Python Basic & SQL Basic – HackerRank
- Database Management System – NPTEL
- Oracle Certified Foundations Associate
- Data Analytics Virtual Internship – Forage (Accenture)
- Power BI with ChatGPT – SkillNation
- MATLAB Onramp & Object-Oriented Programming Onramp – MathWorks
